Findings

1. 28 Texas Administrative Code §134.402(d) states " For coding, billing, and reporting, of facility services covered in this rule, Texas workers' compensation system participants shall apply the Medicare payment policies in effect on the date a service is provided with any additions or exceptions specified in this section."

   28 Texas Administrative Code §134.402(f)(1)(A) states "The reimbursement calculation used for establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the *Federal Register*. Reimbursement shall be based on the fully implemented payment amount as in ADDENDUM AA, ASC COVERED SURGICAL PROCEDURES FOR CY 2008, published in the November 27, 2007 publication of the *Federal Register*, or its successor. The following minimal modifications apply: (1) Reimbursement for non-device intensive procedures shall be: (A) The Medicare ASC facility reimbursement amount multiplied by 235 percent."

   CPT code 62311 is defined as "Injection(s), of diagnostic or therapeutic substance(s) (including anesthetic, antispasmodic, opioid, steroid, other solution), not including neurolytic substances, including needle or catheter placement, includes contrast for localization when performed epidural or subarachnoid; lumbar or sacral (caudal)."

   The MAR for CPT code 62311 is:

   The Medicare fully implemented ASC reimbursement for code 62311 is $294.00.

   The CMS City Wage Index for Carrollton, Texas is 0.9860.

   To determine the geographically adjusted Medicare ASC reimbursement for code 62311:

   The Medicare fully implemented ASC reimbursement rate of $294.00 is divided by 2 = $147.00.

   This number multiplied by the City Wage Index is $147.00 X 0.9860 = $144.94.

   Add these two together $147.00 + $144.94 = $291.94.

   To determine the MAR multiply the geographically adjusted Medicare ASC reimbursement by the DWC payment adjustment factor of 235%

   $291.94 X 235% = $686.05

   The respondent paid $686.03 . The difference between the MAR and amount paid is $0.02; this amount is recommended for additional reimbursement.

2. CPT code 64483 is defined as "Injection(s), anesthetic agent and/or steroid, transforaminal epidural, with imaging guidance (fluoroscopy or CT); lumbar or sacral, single level."

   The MAR for CPT code 64483 is:

   The Medicare fully implemented ASC reimbursement for code 64483 is $294.00.

   The CMS City Wage Index for Carrollton, Texas is 0.9860.

To determine the geographically adjusted Medicare ASC reimbursement for code 64483:

The Medicare fully implemented ASC reimbursement rate of $294.00 is divided by 2 = $147.00.

This number multiplied by the City Wage Index is $147.00 X 0.9860 = $144.94.

Add these two together $147.00 + $144.94 = $291.94.

To determine the MAR multiply the geographically adjusted Medicare ASC reimbursement by the DWC payment adjustment factor of 235%

$291.94 X 235% = $686.05

According to ADDENDUM AA, CPT Code 64483 is subject to multiple procedure discounting; therefore, $686.05 X 50% = $343.02.

The respondent paid $0.00. The difference between the MAR and amount paid is $343.02; this amount is recommended for additional reimbursement.
